

Danny First is an adventurous young collector who has collected photography, paintings, and sculptures

Visit **2** outstanding Los Angeles Collectors

who are active with MOCA.

for the last ten years. He collects emerging artists as well as more established artists such as Kiki Smith, Enrique Martínez Celaya, Fred Tomasselli and others.

Sam and Shanit Schwartz live high in the hills of Benedict Canyon

on a magnificent property with wonderful views. Entering the home, one is overwhelmed by the scope of the collection. Art is everywhere, a plethora of styles and subjects that boggles the mind. Artists they collect span the globe, from Germany, England, the U.S.A., and of course, Los Angeles. From the very young and unknown to Richard Prince, Paul McCarthy, Kiki Smith and others. Sam and Shanit describe their collection as eclectic, with a focus on emerging contemporary artists. While the house explodes with shape and color, the outside is in perfect harmony with nature.
